About Me

I am a skilled Frontend Developer with 5+ years of international project experience in HTML, CSS, JavaScript, ReactJS, and VueJS. My background includes diverse domains such as management systems and transportation. I specialize in creating intuitive user interfaces, ensuring seamless experiences across platforms. I collaborate effectively to integrate designs, troubleshoot issues, and deliver high-quality solutions that align with project goals and exceed client expectations.

Skills

- **Basic skills:** HTML, CSS (less, sass)
- **Languages:** JavaScript, TypeScript
- **Frameworks:** ReactJS, VueJS (Vutify 2)
- **Database:** MySQL
- **Version Control System:** Gitlab/ Github

Experience

Faba Technology

Jan 2021 - Sep 2024

Project: Pulse

Frontend Developer

Project Description: Pulse is a management system created to handle the ever-increasing complexity of project management with automated tools all in one place so that users can do more with less.

Responsibilities:

- Analyse and clarify requirements: Refine project specs for clarity and alignment.
- Develop new features: Implement additional functionalities.
- Give solution ideas for features and UI: Propose UI and feature enhancements.
- Bug fixing and optimize features: Resolve issues and enhance performance.
- Implement reusable components: Create modular rontend elements.
- Mentor intern members: Guide and support junior team growth.

Technologies used:

- HTML/CSS
- JS/Jquery
- TypeScript
- ReactJS
- Redux/Redux Toolkit
- PHP/Laravel
- MySQL

Project: TransportMe

Apr 2023 - Jan 2024

Frontend Developer

Project Description: An Australia Bus Transportation Platform which builds multiple modules like: bus tracking, vehicle management, shifts, employee management,...

Responsibilities:

- Developing new features: Adding enhancements to expand application functionality.
- Bug fixing: Resolving issues to maintain smooth operation.
- Testing: Conducting thorough tests to ensure quality and reliability.

Technologies used:

- HTML/CSS
- JS/VueJS
- Vutify 2
- PHP/Code igniter

Havas Ekino

Project: Pulse

Sep 2024 - Now

Frontend Developer
